News From Your TOWN HALL

Mrs. Williams reports that a number of returning families are requesting that meters be reinstalled, or reconnected, but that there hasn't been any great rush.

The City Fathers have appointed J. H. Hodges as an additional policeman to help Chief Williams. Mr. W. R. Coker has taken over the job of working prisoners.

John Kirk has resumed the practice of putting prisoners in the local jail instead of taking them to Pahokee.

Dutch Wallis has been retained at the Town Hall as Town Clerk and other employees in the Fire and Water Department are still on the job.

The Commission seems to take the attitude that Town Employees are entitled to exercise their voting privilege, provided they are not maliciously active. Then too, good men are hard to get now.

Belle Glade-Pahokee Game Friday Night

The Belle Glade Golden Rams galloped through a final scrimmage session Wednesday evening as Coach Edward Brown pointed his aerial-minded grid squad for the season's high school opener tonight against Pahokee Blue Devils at Lair Field in Pahokee. The kickoff will be at 8:30 p. m.

The contest is expected to be a close one when the Blue Devils are highly favored with a background of experienced players having eight returning lettermen which the Rams are a new outfit with the exception of two lettermen.

This is the second season that the Belle Glade High School and Pahokee High School will meet on the gridiron and highlights the playing season since these are the two teams in the Glades area and keen rivalry is always expected.

The Blue Devils are quite a few pounds heavier on both line and in the backfield. The Rams expect to tackle them with a fighting spirit even though outclassed and outwitted.

Bennie Richmond, returning letterman of the Rams has been switched from guard to the quarterback position and is expected to be the sparkplug of the Rams attack with valuable assistance from Joe Cherry, a freshman, who is showing promise of being a great back.

Also lining up in the backfield will be G. Wedgeworth, B. Jeffries and Pickens Woodward who are reserves from last year's squad. The mainstay of the line will be "Shorty" Shiver, captain and letterman of '41.

Which Road Does Paul Want?

We believe there are two or three roads Paul is interested in—the one from here to Pahokee and one from Palm Beach County leading to Pahokee, or one from the new Sixth District to Washington.

We wonder if the last two are predominant in Paul's thoughts—and that is understandable.

If the one from Pahokee to Belle Glade—and Pahokee are using it a lot now—could not be helped now—Mr. Paul had "put the pressure" on our former State Road Commissioner as his successor.

Are the two gentlemen referred to considered immune to suggestions because of their political influence in any proposed road?

It'll Cost You an EXTRA \$100 Bond to Look Him In The Eye!

HE'S AN AMERICAN SOLDIER—Some day, if God is with him, he'll come home. And when he does, you'll get the biggest thrill of your life if you can look him squarely in the eye and say, "I couldn't help you fight—but I did everything in my power to help you win!" There's only one way you can say that—and that is to help NOW . . . when he needs all the help you can give him. Today's particular job for you is to scrape together every dollar you can—and buy an extra \$100 worth of War Bonds.

Farm Wages May Be Stabilized Under Federal Supervision

Rumors are rife that wage stabilization on farms is in sight. Reports are that California has instituted such a stabilization in thirteen counties under an iron clad rigidly enforced federal set-up.

Something seems to be afoot. There was a labor hearing held at the Town Hall Wednesday under the guiding eye of Mr. Mounts. The purpose of this hearing was to determine the average prices paid in Palm Beach county for farm labor at the present time and to attempt to determine what will be paid this coming season.

Numerous farmers testified as to local wage rates, and several from the East Coast also testified.

Universally the Glades area, and Belle Glade in particular, has the record for the highest wages paid generally and specifically.

It was reported that our own pickers went to the East Coast last season and picked beans for a top of forty cents after squeezing local farmers for 65 to 75 cents.

A contract picker just returned from New York State testified that our same pickers harvested the crop up there this summer for fifty cents straight thru, first, second and third, and toted their own hampers to the end of the row. Also each hamper is weighed and all argument about a full hamper eliminated. What is there about the Glades atmosphere that makes the negro smarter and the Glades farmer dumber-headed?

A favorite pastime among some farmers is offering his neighbor's land a half dollar to a dollar more per day than he is now getting—a vicious circle resulting in mounting wages to all with less effective work—good old fashioned labor piracy. It's practiced among the "elite" of the community, and sprinkling is plentiful by the victim.

New "A" Books Grade 3 Tires Ration Book No. 4

It is reported here: THERE IS A SHORTAGE OF RUBBER, both natural and synthetic, and our boys use a lot of it chasing Mussy's former suits around and pushing the Nasties back, both on the ground and in the air.

Because of this shortage, the OPA was set up to ration what tires the public are to get. Someone—not the local Board—made the rules, and are constantly changing them, in order to see that those who need tires most get first choice.

Among the rules is one that prescribes that NOBODY except a doctor or police officer will get a grade one tire for a spare; the rule is that a grade three tire is good enough for a spare.

Now, those that get hot in the collar at the local Board for this regulation, are only exciting themselves. If it's a spare you want and you just gotta have a grade 1 tire, study medicine or become a police officer—for that the way you will get them.

If you bring in the application to be sure to bring in your tire inspection report—that's what the regulations call for.

Arthur Wells, Chairman of the local War Price and Rationing Board will begin accepting basic renewal applications this week. Application forms have been distributed by the Board to service stations in this area and motorists are requested to pick up the blanks and mail them early, so that they may be processed and the new books issued.

to users before the expiration of the present books. Mr. Wells pointed out that no applications will be considered that are not accompanied by the current tire inspection record and the back cover from the old A book.

Mr. Earwood is accompanied by his wife and one child, and comes from northwest Florida where he served as a football coach in high school.

He has also had experience with the FSA, since his graduation from the University of Florida, most recently as manager of the Canal Point Camp.

No new policies are announced by Mr. Earwood as yet, as he has not had time to study and assimilate the problems of the local camp, which is the largest negro camp established in Florida.

Six More Days In Which To Get License

Only six more days to get your drivers license. After the first of October, warnings will be issued and all licenses will be checked and arrests made. Approximately 1200 have been said to date.

Patrolman Dromme reports that he stopped 25 cars last Saturday night, within three hours time to get their licenses and to get their licenses.

Barbecue By Baker For Local Masons

The Masons of Lodge No. 273, Belle Glade, will entertain their District Deputy Grand Master Ward Neely of Lake Worth, on Tuesday September 28 at the Lodge room.

Mayor J. K. Baker, who by reputation brought from Gargis has some skill in barbecuing will perform that ceremony on some pigs which are donated by Joe Cherry.

Provisions will be made for more than four score persons as it is expected that other distinguished Masons will visit the lodge at that time.

There are three or four candidates for the Master's degree which will be a feature of the work.

Those eligible are cordially invited to visit the lodge for the occasion.

The Florida Power and Light Company has bought \$7,000 in Bonds through the local Committee.

Pahokee-Belle Glade Road To Be Repaired Soon

Crocker Receives Word That Glades Roads To Be Put In Condition

Doyle Crocker has just returned from Tallahassee where he met with the State Road Board relative to road No. 143 between Canal Point and Belle Glade.

Advertisements are being prepared asking for bids for a repair and maintenance of this stretch of road, and the State Road Department has definitely committed itself to prosecute the work with as much speed as practicable.

"The job will not be closed during the repairs. This will necessitate the repair of half of the road at a time" said Mr. Crocker.

"Definite arrangements have been made to also rebuild the Road No. 25 from South Bay around to the County lines. Announcement of this project and its completion date will be made by the State Board sometime in the near future."

"I have been assured that the repair of the Pahokee-Belle Glade road will be rushed, and if possible, completed before the height of the shipping season."

BAND DIRECTOR WANTED

Mrs. Edith Murray has accepted the permanent appointment as teacher for one section of the third grade and Mrs. J. B. Short of the fifth grade.

Nursery School Opened At South Bay Wednesday

The former health center, a two room cottage on the South Bay school grounds, has been cleaned and remodeled by S. M. McAllister and a corps of volunteer workers during the last week and turned into a Nursery School which opened Wednesday with a registration of 12 preschool age children. Mrs. Elvira Fulton has been appointed teacher of the nursery school and necessary equipment has been installed to make it comfortable and adequate for the purpose.

This Nursery school is one of 7 in the county, four white and 3 colored. All the schools in the county are under the direction and supervision of Mrs. Marion C. Dodge, director of Extended School Service for Palm Beach county.

Mrs. Dodge paid tribute to the splendid cooperation of Police Chief McAllister and other South Bay citizens who accomplished in one week what would have ordinarily taken a month to secure and prepare a suitable place for the school.

These schools are established to take care of young children whose mothers are engaged in war work or other essential industry and who are therefore unable to give their children the necessary care and supervision during working hours, which is every child's birthright. Their play time and rest periods are carefully supervised and they

are given a carefully balanced, healthful diet while in school.

UNCLE SAM NEEDS YOUR HELP!

Our government asks every American to conserve critical materials and manpower to win this war. You can make possible considerable savings in military and other uses of electricity which will conserve needed materials without lowering margins of safety or essential use.

Dimout Regulations

have not been changed in any respect and will continue to be your guide in all instances. However, in the interests of conservation, you can do these things voluntarily:

1. ELIMINATE DAYLIGHT ILLUMINATION of indoor and outdoor advertising, promotional and display signs; show windows which provide no essential interior illumination; marquees and building entrance signs; outdoor business establishments.
2. Eliminate outdoor and semi-essential interior decorative and architectural lighting and decorative floor lighting. Reduce wattage of essential interior lighting if practicable.
3. Reduce wattage of all lighting used without impairing safety considerations.
4. Use exterior lighting only as permitted under Dimout Regulations but in no case for an interval of more than two hours.
5. Turn off lights when not actually needed or when establishment is not open for business, except for lighting necessary for protection.

DO NOT curtail necessary military, civilian and police lighting essential to public health, including essential conservation and safety plant protection transportation and production purposes. Outdoor recreational facilities are considered essential for wartime morale and lighting for such purposes should not be discouraged. However, whatever economies can be achieved in these fields are urged.

Other Ways You Can Help Conserve
You can save in electricity by adopting the maximum amount of economy in conserving and using electricity. Estimate necessary use of all electrical equipment and turn off lights when not in use.

"This War Will Become Bigger and Tougher . . . During the Long Months to Come"

Franklin D. Roosevelt

Italy has fallen—but the war is not over and you know it! Think of Berlin and Tokyo—think of the men dying at this moment.

Can we, you and I, afford to let them down—to turn their battlefield victory into a home-front defeat? Let's buy more War Bonds than ever . . . let's back up their victory with ours—the success of the 3rd War Loan!

There are battles coming—tough, bloody, hard-to-win battles—before this war is over. And it's the last battle that counts. We've got to back up our fighting men . . . we've got to buy War Bonds with every dollar, every dime we can scrape up.

PRESIDENT ROOSEVELT said it, as Commander-in-Chief:

"I say that we Americans will not be satisfied to send our troops into the fire of

the enemy with equipment only equal to that of the enemy. We are determined to provide our troops with overpowering superiority of quality and quantity of arms and armaments . . ."

Our fighting men will do their job—it's up to you, personally, to keep their victories safe by buying War Bonds NOW with every dollar you can—not with what you'd ordinarily save or invest, but more—every bit more you can manage.

BONDS OVER AMERICA

Deep within San Francisco's Chinatown lies St. Mary's Park, a mere speck on the city map, but it is here that a new landmark greets the eye of the visitor. It is a heroic statue of Dr. Sun Yat-sen, first president of China.

Buy an Extra \$100 Bond in the 3rd War Loan

Years ago the French erected a statue to Dr. Benjamin Franklin, economist, scientist, humanitarian. One of the first acts of the Nazi conquerors of France was to remove this memorial to this American statesman.
